

## WHY CHOOSE SEA TECH MARINE TRAINING?

After you have made your decision to pursue licensing, you must decide how to prepare for the exam. Make no mistake about it; the Coast Guard exam is difficult. Regardless of your background, the exam will be a challenge.

The test is largely commercial in nature. The average boater is not familiar with many of the subjects, which include fire fighting, Coast Guard regulations, commercial towing, and many others. The rules portion of the exam is considered the most difficult as it deals primarily with the commercial rules. It is loaded with difficult questions, and a grade of 90 percent is needed to pass.

## WHERE DO WE COME IN?

We write, administer, and grade your exam. Rather than wading through thousands of questions in a home study guide, we teach you the material we have on our exam, so there are no surprises.

Just as important, our class is interesting, educational and fun! Our staff are all professionals who take great pride in presenting a quality product that gets you the license of your choice as easily as possible. The bottom line is we have been conducting these classes for over 20 years, and we have never met a single person who regretted taking the course or was disappointed in having the license.

We are so confident that you will be pleased with our results that we offer a unique guarantee. **IF AT ANY TIME DURING THE COURSE YOU FEEL WE ARE NOT DOING A GOOD JOB, WE WILL REFUND YOUR TUITION, LESS THE BOOKS AND MATERIALS.**

## WHY HOLD A COAST GUARD LICENSE?

- ✓ Prove your qualifications.
- ✓ Satisfy a dream.
- ✓ Generate income.
- ✓ Become a Charter Captain.
- ✓ Create a tax deduction.

Whatever your reason may be, a Coast Guard license is something to be proud of. In fact, less than two percent of all boaters have one. Why aren't more boaters Coast Guard Licensed Captains? Frankly, it's because the usual course to get a license can be frustrating - the forms, the preparation, the studying. When you finally do get ready, you have to drive to an Exam Center in Ohio to take the test.

That is where we come in. We are professionals in the maritime training business. We take you step-by-step through the application process. We even have a convenient place set up for your required First Aid/CPR class. Our course is entertaining, educational and, in virtually every case, results in you getting your license.
